SUMMARY

Computer Science Engineering undergraduate with hands-on experience building AI-powered SaaS platforms, cross platform mobile applications, and full-stack web systems using Python, JavaScript, Flutter, and Firebase. Developed and deployed an AI-based smart inventory management system at the FantomCode Hackathon and engineered a hyperlocal food delivery platform featured in multiple hackathons. Proficient in REST API design, MySQL schema optimization, and integrating AI/ML modules into real-world applications.

TECHNICAL SKILLS

- **Languages:** C, Python, JavaScript, Dart, SQL.
 - **Frameworks & Libraries:** Node.js, FastAPI, Flutter, Express.js, OpenCV, NumPy.
 - **Databases & Tools:** MySQL, Firebase, Git, GitHub, REST APIs, Postman, VS Code.
 - **Core Fundamentals:** Data Structures and Algorithms, Operating Systems, Database Management Systems, Computer Networks.
 - **Domains & Concepts:** Full Stack Development, Artificial Intelligence (AI), Prompt Engineering, Machine Learning Fundamentals.
-

PROJECTS

1. Retail Guard (AI-Based Smart Inventory Management)

- **Tech Stack:** JavaScript, Node.js, Applied AI, Database Management Systems.
- Engineered an AI-powered SaaS inventory and store management system designed to optimize retail operations and reduce stock waste.
- Developed Algorithmic modules for real-time live inventory tracking and automated product expiration monitoring.
- Integrated intelligent predictive analytics to deliver data-driven sales insights, helping shop owners improve profit margins.
- **Recognitions:** Deployed and pitched as the core project at the FantomCode Hackathon (RVITM).
- **Skills:** AI, JavaScript, Firebase, Inventory Management, Data Analytics.

2. HomePlate (AI- Based Smart Food Suggestion and Delivery Platform)

- **Tech Stack:** Dart, Flutter, JavaScript, REST APIs, Cross-Platform Mobile Development.
- Designed and built a hyperlocal, cost-effective food delivery platform tailored for university students seeking home-cooked meals.
- Architected scalable backend logic handling user authentication, real-time location-based sorting, and order routing.
- **Skills:** Full Stack Development, Firebase, UI Design.
- **Recognitions:** Successfully adapted into two distinct architectures for competitions:
 - ➔ Developed as a **web application** for the **NIRMITH Hackathon** at Nitte Meenakshi Institute of Technology.
 - ➔ Developed as a **cross-platform mobile application** for the **VIBE-A-THON Hackathon** at Nitte Meenakshi Institute of Technology.

3. Hotel Management System

- **Tech Stack:** Python, SQL, Relational Databases (MySQL).
- Built a comprehensive desktop application executing complete hotel operations including booking, dynamic check-in/check-out tracking, and automated bill generation.
- Designed a secure relational database schema to persist customer information, room availability states, and menu inventories.

- **Skills:** Python, SQL, Database Design.

4. Inventory Management System

- **Tech Stack:** HTML, CSS, JavaScript.
 - Created a responsive web application facilitating structured stock tracking and interface controls for small scale retail systems.
 - Improved product organization and inventory tracking.
 - **Skills:** HTML, CSS, JavaScript
-

EDUCATION

Dr. Ambedkar Institute of Technology, Bengaluru | B.E- CSBS | 2024 - Current

Kendriya Vidyalaya (CBSE)

- All India Senior School Certificate Examination (Class 12) | **73%**
 - Secondary School Examination (Class 10) | **72.3%**
-

CERTIFICATION

- 3-days Bootcamp- The World of Tech 2.0 – Google Developer Groups.
 - Data Structures & Algorithms (DSA) Session- GeeksforGeeks.
 - 3-days ML Bootcamp- Google Developer Groups.
 - Python Course for Beginners: Mastering the Essentials- Scaler.
-

HACKATHONS & COMPETITIONS

- FantomCode Hackathon- RV Institute of Technology and Management (RVITM), Project- Retail Guard.
 - NIRMITH Hackathon- Nitte Meenakshi Institute of Technology, Project- HomePlate (Web Application).
 - VIBE-A-THON Hackathon- Nitte Meenakshi Institute of Technology, Project- HomePlate (Mobile App).
-
